| CIM1137 | √ | √ | • | • | * | 757-917# | 208-230/60/3 |

Note: The ice production values given above are based on half-cube, air-cooled models. Water cooled units produce more and remote cooled (in some models) or full cube units produce less. Additionally, air temperature where unit is located may have an impact on the ice production values regardless of model or type.

Important: When installing a CIM unit on a drink dispenser, the KCUBEDISPB MUST be used.

* Remote condensers and line sets are required for remote-cooled ice makers.

RCA and RGA SERIES

RCA Remote Condensers

| Model # | Remote Condensers for use with Models | Dimensions (W x D x H) | Voltage |
|----------|---|------------------------|--------------|
| RCA-1001 | CIM0530R | 30.85" x 27" x 37" | 115/60/1 |
| RCA-1061 | CIM0636R | 30.85" x 27" x 37" | 208-230/60/1 |
| RCA-2061 | CIM0826R, CIM0836R, CIM1126R, CIM1446, ICE1506R, GEM2006R, and MFI2306R | 30.85" x 27" x 41.79" | 208-230/60/1 |
| RCA-3561 | CIM2046R | 30.85" x 27" x 41.79" | 208-230/60/1 |

- Lightweight construction and an aluminum coil help reduce weight by nearly 20% compared to previous models.
- Condenser fits through a standard 30" x 36" roof hatch for ease of installation.
- Easy assembly and installation with innovative legs.
- More efficient motor reduces energy usage by 25% 50%.
- Environmentally responsible all remote condensers use R404A, an approved non-ozone depleting refrigerant.
- Constructed from sturdy, corrosion-resistant galvanized steel.
- Reduces air conditioning requirements and cost.
- Fan is located outside, ensuring quiet operation for customers.

- Cup clearance is 10".
- Ultra-low profile design.
- User friendly push-to-dispense operation.
- Quick stop prevents ice overflow and waste.
- Interlock safety switch turns off machine agitator when access panel is removed to allow easy cleaning of machine.
- 1" foam-insulation for maximum ice preservation (reduces quick melting of ice).
- Corrosion-resistant stainless steel and fingerprint-proof plastic.
- Auto Rotate Agitator turns the ice every hour to provide more dispensable ice.

For use with Ice-O-Matic cuber or pearl (nugget) ice makers

Note: Ice maker not included (sold separately)

IDCPRO Ice/Bev Combo with Drip Tray

Part #

| IDCPRO | 621058656 | 20 * | 255 lbs |
|--------|-----------|------|---------|

IDCPRO Ice/Bev Combo without Drip Tray

| IDCPRO | 621058657 | 20 * | 255 lbs |
|--------|-----------|------|---------|

30" Width x 34.5" Depth x 39.2" Height (with drip tray) 30" Width x 24.94" Depth x 39.2" Height (without drip tray)

- 9.75" Cup Clearance.
- 115/60/1 voltage.

Model

- Up to 20 brands (10 each side 7 chilled and 3 ambient) *.
- Up to 8 flavor shots (4 per side) (Blends with drink or top-off for extra) *.
- Dual touch screen to match duel nozzle for brand and flavoring dispense.
- Commercial-grade HD promotional 32" video merchandiser.
- ADA keypad and Integrated ice maker adaptor kit.
- Post-Mix dispenser and IDC Platform cold carb.
- On-board diagnostic service.
- Uses standard BIB syrups.

XIM-TZO4

Graphical interface allows you to <u>Tap and Scroll</u> to make your selection. Over 3,260 drink combinations!

Note: Ice maker not included (sold separately)

Carbonators

Part #

Description

Big Mac Carbonator

E400397

Big Mac Carbonator with ASSE 1022 Device

BIG MAC

14" Width x 13" Depth x 10.5" Height

- Two-piece probe design.
- 115v, 60hz, 7amp, 1/3hp.
- Right angle probe service cord.
- Brass water pump w/ integral strainer.
- 1/4" MF CO2 inlet, (2) 3/8" MF soda water outlets.
- Diamond Brite Tank, easy clean, reduces corrosion.

Note: 5-year component warranty on two-piece probe and carbonator tank.

Part #

Description

VA BALANCE CONTROL

Carb-In-A-Box Carbonator

416411000

VA Balance Control Carbonator

6.25" Width x 14" Depth x 15.125" Height

- - 115v, 60hz, 6.8 amp, 1/3hp.
 - Brass water pump w/ integral strainer.

Rubber feet for stability and quiet.

- 1/4" MF CO2 inlet, 3/8" MF water inlet.
- 1/4" MF on carbonated water outlet.
- Designed to allow mounting to wall surface.
- 100 gpm water pump capacity.

Part #

Description

Small Carbonator

416411000

43-6002

Small Carbonator with ASSE 1022 Device

Small Garu

9" Width x 11.5" Depth x 11" Height

- Two-piece probe design.
- 115v, 60hz, 7amp, 1/3hp.
- Right angle probe service cord.
- Brass water pump w/ integral strainer.
- 1/4" MF CO2 inlet, 3/8" MF water inlet.
- 3/8" MF soda water outlet.

Note: 5-year component warranty on two-piece probe and carbonator tank.

Accessories and Cold Plates

ASSE 1022: It's a back-flow prevention device that provides pressure relief in the event that the primary check valve fails. It ensues that the secondary check valve remains closed.

A carbonator facilitates the combining of water and CO2 gas that puts the fizz to soda.

Item # 16-0856

Pump saver, auto-shut off on carb motor when water pressure drops below 15-psi

Item # 16-1480

Wall mount space-saver carbonator shelf for use with 43-6002 carbonator

Is the cost of equipment, accessories, and parts weighing you down?

Ice

Everpure Insurice Filtration Systems:

- Reduces abrasion and clogging.
- Reduces scale build-up and corrosion.
- Reduces off-tastes and odors.
- Reduces harmful cysts and other contaminates.
- Reduces particulates that result in cloudy ice.
- Remember: It's suggested to replace filter cartridges every 6-months.

EV9324-01

Insurice Single i2000 System

Max Flow Rate: 1.67 gpm

Use this system with ice maker rated

Max Cuber Size: Up to 750 lbs / day

Max Flaker Size: Up to 1500 lbs / day

EV9324-02

Insurice Twin i2000 System

Max Flow Rate: 3.34 gpm

<u>Use this system with ice maker rated</u>
Max Cuber Size: Up to 1450 lbs / day
Max Flaker Size: Up to 2200 lbs / day

EV9325-03

Insurice Triple i4000 System

Max Flow Rate: 5 gpm

<u>Use this system with ice maker rated</u>
Max Cuber Size: Up to 2400 lbs / day
Max Flaker Size: Up to 3500 lbs / day

EV9325-04

Insurice Quad i4000 System

Max Flow Rate: 6.7 gpm

Use this system with ice maker rated
Max Cuber Size: High volume / day
Max Flaker Size: High volume / day

Insurice i2000 Replacement Cartridge

Fits Single and Twin Systems

Insurice Filter Systems with Pre-Filter

| madrice i liter bysterns with the litter | | | |
|--|---|--|--|
| Item # | Description | | |
| EV9324-21 | Insurice Single PF-i2000 System with Pre-Filter | | |
| EV9324-22 | Insurice Twin PF-i2000 System with Pre-Filter | | |
| EV9325-23 | Insurice Triple PF-i4000 System with Pre-Filter | | |

Select the Insurice system with pre-filter when larger dirt and rust particles are a factor. It will extend the life of the primary filter cartridges.

Ice

Water Filtration

Ice-O-Matic 3-in-1 Filtration Systems:

- Protection against sediment.
- Protection against unpleasant tastes & odors.
- Protection against scale formation.
- Remember: It's suggested to replace filter cartridges every 6-months.

IFQ1

3-in-1 Single System

Service Flow Rate: 1.5 gpm

6" W x 4" D x 15" H

Use this system with ice maker rated

Max Cuber Size: Up to 1000 lbs / day Max Flaker Size: Up to 1000 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ1-XL

3-in-1 Single System

Service Flow Rate: 2.25 gpm

6" W x 4" D x 21" H

Use this system with ice maker rated

Max Cuber Size: Up to 1000 lbs / day Max Flaker Size: Up to 1000 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ2

3-in-1 Twin System

Service Flow Rate: 3.0 gpm

10" W x 7.125" D x 16" H

Use this system with ice maker rated

Max Cuber Size: Up to 2400 lbs / day Max Flaker Size: Up to 2400 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ System Replacement Cartridge

Fits IFQ Single and Twin Systems

IOMQ

12.75" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary. > .5 micron filtration.

IFQ-XL System Replacement Cartridge

Fits IFQ1-XL Single and Twin Systems

IOMQ-XL

17.49" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary. > .5 micron filtration.

In-Line Water Filtration System

| Part | # Description | |
|-------|--|--|
| IFI4C | Single In-Line Cartridge, 1/4" Compression | |
| IFI8C | Single In-Line Cartridge, 1/8" Compression | |

Note: Ice-O-Matic offers an extended 7-year parts and labor evaporator warranty (on specific models) IF the customer enrolls in their 3-in-1 filter replacement program at the time a new ice machine is purchased. Due to the extensive requirements for the filter cartridge to be changed every 6-months, please ask a salesperson for details of the program before commiting to it.

Ice

Everpure Insurice Filtration Systems:

- Reduces abrasion and clogging.
- Reduces scale build-up and corrosion.
- Reduces off-tastes and odors.
- Reduces harmful cysts and other contaminates.
- Reduces particulates that result in cloudy ice.
- Remember: It's suggested to replace filter cartridges every 6-months.

Systems with prefilters extend the life of the primary filter cartridges.

EV9327-73

Insurice Triple PF-7FC-S

Max Flow Rate: 7.5 gpm

Rated Capacity: 75,000 gallons

NOTE: Systems are also available with low pressure alarm, indicating when a filter has become plugged. If a filter system listed above requires an LP alarm, ask a GIS salesperson for a vendor number and price.

High Flow CSR CLM+ Systems

Everpure HF CSR CLM+ Filtration Systems:

- Reduces abrasion and clogging.
- Reduces improper carbonation.
- Reduces off-tastes and odors.
- Reduces harmful cysts and other contaminates.

- High capacity Chloramines reduction.
 For fountain beverage, frozen carbinated beverage, and drinking water applications.
- NSF 42 certification.
- Remember: It's suggested to replace filter cartridges every 6-months.

Water Filtration

Endurance High Flow Systems

Everpure High Flow Filtration Systems:

- Meets peak water demands.
- Mechanical particulate reduction system.
- Reduces off-tastes and odors.
- Superior contaminant reduction.
- 1/2 micron precoat filtration.
- Incorporates 2SR-BW phosphate cartridge for scale prevention.
- Systems have outstanding dirt-capturing capabilities.
- High capacity allows for once-per-year filter changeouts.

Beverage Line Cleaners

BEVERAGE UNE CLAMA

| Item # | OEM# | Description | |
|-------------|------------|--|--|
| SB-2.5G-BIB | 6650002 | 2.5-Gallon Bag-in-Box, In-Line Beverage Line Cleaner | |
| SB-55G-D | 6650002-55 | 55-Gallon Drum, In-Line Beverage Line Cleaner | |

For use with Ice Beverage Combos, Counter Electrics, Bar Guns, Juice, Dairy, Cappuccino Dispensers, and BIB Cartridge based machines

No buckets, mixing, waiting for powders to dissolve, or waiting for the cleaner to work. The chemical solution is tasteless and odorless. It is food safe and requires no rinsing.

We acquire the cleaning solution from multiple vendors. As such, one brand of chemicals may differ from another. Requirements for use may have alternate methods of application, etc...

- Cleans all internal components on the syrup and/or juice side.
- Cuts down on brix related service calls by cleaning out bacterial growth and restrictive buildup.
- Simply connect the beverage cleaner directly to the selected flavor and run it until clear cleaner is visible.

Ice Machine Cleaners

Nickel-Safe Ice Machine Cleaner

| Item # | Description | |
|---------|---|--|
| 4287-34 | Nickel-Safe Ice Machine Cleaner 16 fl oz. | |

- > Made for use on machines with Nickel-Plated Evaporators.
- > Can be used on any cuber, flaker, drum, or tube ice maker.
- > Food-Grade, USDA-Accepted.

ScaleKleen Deliming/Scale Remover

| Item # | Description | |
|-----------|--|--|
| EV9798-35 | ScaleKleen Deliming/Scale Remover Cleaner 2.2 lbs. | |

- > Quickly removes limescale from coffee brewers and similar equipment.
- > Idea for deliming steam and warewashing equipment.
- > Non-toxic, safer to skin and won't burn clothing like other deliming acids.
- > Sewer system disposable, so you can pour it down the drain.
- > Use with the JT cartridge system to avoid equipment disassembly.
- > Works on most water using equipment where deliming is required.
- > Product must be used according to use instructions stated on canister.

| Item # | Description | |
|-----------|---------------------------------------|--|
| EV9608-00 | 4JT Flushing/Sanitizing 16" Cartridge | |
| EV9608-10 | 2JT Flushing/Sanitizing 10" Cartridge | |

- > For use in existing Everpure quick change filter heads.
- > For use with ScaleKleen or other sanitizing agents.
- > Eliminates the need for difficult component disassembly.
- > Cartridges must be installed and used according to instructions.

EV9608-00 → /

- → Add ScaleKleen or other santizing agent.
- → Insert cartridge in an Everpure filter head.

Prices per unit based on quantity ordered. (More is less \$)

Our CO2 cylinder carriers offer several heavy-duty construction features that meet the DOT Code of Federal Regulations for safe and efficient transportation of compressed gases. From the rigid welded frames constructed of heavy gage square steel tubing to their ability to serve double duty as returnable pallets, these CO2 carriers are a safe and approved way to transport compressed gases. These units are stackable, saving valuable floor and truck space. (Orders are shipped FOB Factory).

Specialized Beverage Valve

TOUCHLESS

Touchless Beverage & Ice Dispensing

An Innovative Hands Free Sanitary Solution

In today's foodservice environment, reducing the number of consumer touchpoints is top of mind and challenges current foodservice self-serve stations. The Touchless Beverage & Ice Dispensing solution keeps consumers safe by reducing the risk of surface contact.

- Cup Sensing Technology Place a cup below the valve to activate product dispense. Remove cup to deactivate the sensor.
- LED Dispensing Indicators The valve provides a visual dispensing cue using LED lights for both beverage and ice.
- Easy to Clean Provides a primary key switch for fast and easy cleaning and defaults back to normal dispense mode after 60 seconds.
- Accommodates All Ice and Cup Types/Sizes Up to 52 oz, excluding glass.
- Easy to Control Enhanced pour features allow for faster response times, top-off capabilities, and auto shut-off.
- Upgrade Existing Equipment to Touchless Upgrade or replace existing SFV1, UFB, or UF1 valves with no rebrixing.

BIB FLEX RACK SYSTEM w/ RISER

Part # P6842-10

28" BIB 2-Shelf, 3W X 2H

- Sturdy all welded construction.
- Powder coated grey.
- Two flat shelves, 3 wide x 2 high.
- 28" width.
- Pump riser included.
- Plastic feet and caps included.
- Rack can be stacked using rack connectors.
- Pre-packaged, ready to assemble.

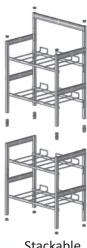

Side View

Each rack shelf provides storage for up to three (3) Bag-In-Box (BIB)

Stackable (connectors not included)

Pre-built Bag-in-Box Rack Systems

For backroom application

Note: We specialize in providing beverage dispensing equipment and backroom packages with installation and setup (ask a sales person for details)

BUILD TO ORDER TEA OR JUICE BAG-IN-BOX DISPENSING SYSTEM

- Sturdy all welded construction.
- Powder coated black rack.
- Custom built configurations to specification.
- Required BIB pumps, tubing, and connectors included.
- Required CO2 regulator(s) included.
- Includes mounted bargun.
- Pre-assembled and shipped complete.
- Great for nursing stations and health care facilities.

Because these systems are custom built, there are no specific part numbers available. When ordering, provide details of type tea and/or juice system you require and the sales person will configure the system to your specifications and provide a quote thereafter.

Pre-built 4-Pump Bag-in-Box Rack System

Flat Vertical Shelves with Pump Panel Riser For use with Frozen Carbonated Beverage (FCB) machine or other related equipment

- Sturdy all welded construction.
- Powder coated black rack.
- Can also be custom built to specification.
- All BIB pumps, tubing, and standard connectors included.
- CO2 regulator included.
- Pre-assembled to specification and disassembled for shipping.
- Designed for use with 4-Product FCB machines.

Part # BIB-10004

- 15" wide x 17" deep x 69" high.
- Top box height 45".
- Modular design.
- Syrup lines feed through back of rack.

Each pre-built BIB rack comes with standard gray BIB connectors. If you require Pepsi or Coke connectors (green or red), please advise at time of order.

Bag-in-Box Rack Systems and Backroom Packages

Whether its Convenience Stores, Restaurants, Fast Food Chains, Hospitals, or Hotels, we are experts at providing complete Ice, Beverage, and backroom packages to serve every need.

Flat Vertical with Louvered Pump Panel racks specially designed to hold 4 BIB boxes per shelf.

Large center holes built into each shelf to run BIB tubing from the back.

Primary and secondary regulators mounted to rack for easy connection to system.

From inception we've been innovators providing beverage dispensing solutions. From the concept of bundled beverage tubing to the BIB Halo system configuration, we've historically impacted the industry.

The halo pump configuration was orginally conceived by Gulf Ice Systems as a means to devise a more efficient BIB pumping solution. Working in conjunction with the manufacturer's engineering team, a new type of BIB rack system was developed.

We configure, build, assemble, and install backroom packages to fit your need

The Bag-in-Box rack system depicted on the left is configured for 20 Flojet pumps per section (Halo configuration with a total of 40 pumps)

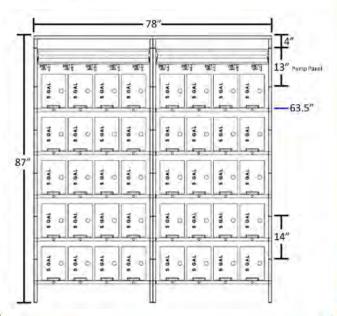

An individual measuring 4'10" in height is still capable of reaching the top shelf to insert a 5-gallon BIB box.

This BIB rack configuration holds up to (40) 5-gallon **BIB Boxes.**

Bag-In-Box Air Pumping Station

This is an economical air station for use with BIB pumps. It features a piston style compressor and a stainless steel tank. The air pumping station can operate up to 3 pumps simultaneouly.

The automatic pressure switch is preset for 60 psi on and 80 psi off. All models have quick disconnect with a 1/3 HP compressor. Each model has a pressure regulator with guage and a self-draining condensation valve. Both models are 115 VAC.

Palm Abbe Digital Refractometer

For Brixing Fountain & Juice Beverages

Model: PA201

Digital Refractometer

Comes with rubber armor jacket and heavy duty Carry Case

- Designed for use with FCB machines.
- Determines sugar content in juice & fountain beverages
- Range 0 to 56 Brix
- Resolution 0.1%
- Precision +/-0.1%
- Price includes rubber armor jacket
- Price includes rugged carry case
- Features Sapphire Optics
- Features Stainless Steel Well
- Features Evaporation Cover
- 24 Character Display with Backlight
- 1,024 Element Detector Array
- Powered by (2) AAA Batteries (included)
- MADE IN THE USA

Bev-Seal Ultra 974 Bundled Tubing: Flushable Bev-Seal Ultra® Series 235 tubes, each color coded, individually numbered and branded with NSF-51 and NSF-61 listings and date codes for traceability. Special film wrap over cabled tubes offers excellent flexibility and tight bend capabilities. Silver-gray extruded jacket, with slip agent to minimize friction, is branded with product identification, NSF listing marks, and sequential footage markings for ease of measurement.

<u>Series 200 Clear PVC Tubing</u>: Dual durometer construction combines a low extraction inner contact surface with a flexible outer layer for excellent kink resistance and taste protection properties. Clear Food Grade liner materials free from colorants.

Series 213 and 215 PVC Drain Tubing: Industrial grade PVC tube construction providing lightweight flexibility, kink-resistance and economy.

Camserver - Insulated Beverage Dispenser For hot and cold beverages

A contemporary, convenient beverage server for the office or banquet, the Camserver protects piping hot or chilled drinks for hours. Coffee, tea, and ice-cold lemonade can be served side by side with confidence, secured by a double wall shell and thick foam insulation. A top-fill opening design offers fast replenishment without having to remove the cover, while remaining incredibly easy to clean and store. Safe for commercial dishwashers, this Camserver joins classic Cambro durability with the aesthetic of fine dining. Choose from three and five gallon options for versatility in your beverage service, on any occasion.

- For hot or cold beverages.
- Doublewall shell with thick foam insulation.
- Wide latches are easy to open and close.
- Convenient top-fill opening.
- Drip-free recessed faucet has continuous and individual dispensing.
- 2 product variations (3 or 5 gallon versions).
- 3 neutral color options (Black, Coffee Beige, or Gray).

Need Service?

1-800-322-4853 (x114)

We have a full service ice & beverage equipment service and warranty administration departments.

We service what we sell and fully back all manufacturer's warranty for the equipment sold by us.

(Certain restrictions apply. All warranties required to follow manufacturer's warranty allowances and guidelines)

We also provide complete Ice and Beverage system packages with professional installation.

Your Partner Providing Ice and Beverage Dispensing Solutions!
