

ICE FROST – 2 BOWL

**VISUAL FROZEN CARBONATED
BEVERAGE DISPENSER**

FEATURES:

- Pre-Mix and Post-Mix models available
- Auto Fill System (AFS)
- Pressurized system. Sealed bowls pressurized with CO₂ increases product quality and preserves freshness while providing flexibility to deliver various products, juice, tea, coffee, dairy or cola, with over run which increases profits.
- Can be connected to existing fountain supply
- Independent cooling Systems. Each bowl is equipped with an individual cooling system that provides optimum flexibility. Quicker pull down time translates to higher drink capacity
- Electronic control system. Provides programmable defrost periods and system diagnostics.
- Fan cooled drive system. Reduces gearbox temperature and improves life
- Attractive styling. Highly visible product drives impulse purchases. Illuminated merchandising on top and rear grabs customer attention. Provides opportunity for customization
- Easy to maintain. Components can easily be removed for cleaning. Easy access condenser air filter
- Environmentally responsible R-404a refrigerant
