

BIB Accessories

Automatic Selector Valve (ASV)

Eliminate the chore of replacing BIBs during peak business times. [An ASV](#) permits multiple ASV to be connected to a particular pump. Once the BIB on one side has completely emptied, the ASV automatically switches to the full BIB. An ASV provides uninterrupted drink dispensing and allows replacement of empty BIBs during off-peak hours.

<b>Model</b>	<b>94-350-08</b>
Description	Automatic Bag Selector for gas pumps
Switch off activated @	18" Hg [61 Kpa]
Ports	3/8" barb
Approvals	NSF listed
<b>Model</b>	<b>94-350-03</b>
Description	Automatic Bag Selector for brix pumps
Switch off activated @	16" Hg [40 Kpa]
Ports	3/8" barb
Approvals	NSF listed

**Sold Out Switch (SOS)**

The [SOS](#) prevents the dispensing of carbonated water without syrup by stopping water flow at the dispenser valve - a particularly useful feature for lemon-lime (clear) sodas and drive-through windows. The SOS senses the pressure drop in the syrup line caused by an empty BIB and shuts off power to the valve's electric solenoid. The SOS automatically resets with the installation of a full BIB.

**Sold Out Switches**

<b>Model</b>	<b>94-068-01</b>
Description	SOLD OUT SWITCH: 8-30 psi, 115 VAC, Extra long (78") Wiring cables incl. w/LED light
Ports	1/4" barb
Approvals	NSF listed
<b>Model</b>	<b>94-068-20</b>
Description	SOLD OUT SWITCH: 8-30 psi, 115 VAC, 48" Wiring cables included w/LED light
Ports	3/8" barb
Approvals	NSF listed

**Low Profile Sold out Switch**

<b>Model</b>	<b>94-068-33</b>
Description	Mini-Micro SOLD OUT SW. 25-60 psi, 115 VAC, 48" wiring cables included
Ports	1/4" barb
Approvals	NSF listed
<b>Model</b>	<b>94-068-31</b>
Description	15-20 psi, 115 VAC, 48" wiring cables, LED included
Ports	1/4" barb
Approvals	NSF listed

## Water Pressure Reducing Valve

SHURflo's 183 series is a fixed water pressure reducing valve (non-adjustable). Its function is to minimize input water pressure fluctuations while guarding against high incoming spikes of pressure.

<b>Model</b>	<b>183-059-06</b>
Description	50 psi water pressure reducer valve
Ports	3/8" barb
Approvals	NSF listed
<b>Model</b>	<b>183-069-06</b>
Description	30 psi water pressure reducer valve
Ports	3/8" barb
Approvals	NSF listed

## 3-Way Valve

The 3-Way valve is designed to facilitate "in place" sanitizing for SHURflo Brix pumps. Proper system maintenance is essential to assure peak performance and reliability of the Brix pump and should be included in every Brix pump installation.

<b>Model</b>	<b>94-056-00</b> Picture not available
Description	3-Way Valve
Ports	3/8" (10mm) barb
Max. Pressure	100 psi (6.8 bar)
Approvals	NSF listed

## Reverse Flow Inhibitor

The Reverse Flow Inhibitor prevents back-flow and is strongly recommended for Brix pump installations.

<b>Model</b>	<b>94-054-00</b> Picture not available
Description	Vacuum Regulator
Ports	3/8" (10mm) barb
Max. Pressure	100 psi (6.8 bar)
Approvals	NSF listed

## Vacuum Regulator

A Vacuum Regulator used on the product inlet line of the Brix pump or Gas pump permits the pumping of product from remote storage locations to the downstream pump.

<b>Model</b>	<b>84-010-00</b> Picture not available
Description	Reverse Flow Inhibitor
Ports	3/8" (10mm) barb
Cracking Pressure	0 -1 psi (0 - .1 bar)
Max. Pressure	100 psi (6.8 bar)
Approvals	NSF listed

## Gas Pump Mounting Brackets

The SHURflo Snap-Fit Base Plate (base plate) and Track system has been designed to provide the market the tools necessary to easily configured pump systems with any number of pumps. The base plate works with the Track to form Pump systems or without the Track to mount the pumps individually to racks or walls.

Model	Description	
94-467-00	Snap Fit Base Plate Kit (48) – Black	 <p>The pump slides and snaps onto the base plate.</p>
94-467-10	Snap Fit Base Plate Kit (48) – Blue	
22-243-01	3 Pump Track for Snap Fit Base Plates	 <p>The pumps mounted on the base plate slide onto the track to form the pump system. No clips or screws are needed.</p>
22-243-04	4 Pump Track for Snap Fit Base Plates	
22-243-05	5 Pump Track for Snap Fit Base Plates	
22-243-06	6 Pump Track for Snap Fit Base Plates
