Features

Future-Proof Refrigerant

R290 refrigerant ensures long-term compliance and avoids costly conversions or equipment obsolescence — a smart, sustainable investment.

Efficiency Through Advanced Electronics

Advanced controls optimize ice production, cut energy and water use. Built-in diagnostics minimize downtime and reduce service costs, giving operators a measurable ROI.

Connected Kitchen Ready

Built for the future with IoT-enabled electronics designed to support future connectivity needs.

Consumer-Preferred Chunklet Ice

Loved for its chewable texture and flavor absorption, chunklet ice drives repeat business and enhances the customer experience across foodservice segments.

Modern Aesthetic for an Upscale Look in Consumer Facing Locations

The sleek carbon black front fascia provides a modern, professional look that complements today's front-of-house and open-kitchen environments. Equipment that looks as good as it performs helps operators align with customer expectations for clean, stylish, and premium spaces, enhancing brand image.
