Note: ICE Series and CIM Series ice machines which are registered in the Water Filter Extended Warranty Program will receive a total of eighty-four (84) months parts and labor coverage on the evaporator plate from the date of original installation. Water filters must be installed at the time of ice machine installation and registered with the Company at that time. Water filter cartridges must be changed every six (6) months in accordance with the IOM filter program, and that change must be reported to the Company to maintain the extended evaporator warranty.
