CIM1137_ _	✓	✓	●	●	●*	757-917#	208-230/60/3

Note: The ice production values given above are based on half-cube, air-cooled models. Water cooled units produce more and remote cooled (in some models) or full cube units produce less. Additionally, air temperature where unit is located may have an impact on the ice production values regardless of model or type.

Important: When installing a CIM unit on a drink dispenser, the KCUBEDISP MUST be used.

* Remote condensers and line sets are required for remote-cooled ice makers.

KGEMDISP	Kit required for mounting a GEM to a Cornelius or Lancer dispenser	Stocked
1011520-11	Bin Kit for (2) 30" CIM, GEM, or MFI Series Ice Makers on a 60" bin only	N/S

N/S = Non-Stocked Item, requires special order and lead time.

We stock and sell parts and accessories for all brands and models we represent.

RCA and RGA SERIES

RCA Remote Condensers

Model #	Remote Condensers for use with Models	Dimensions (W x D x H)	Voltage	
RCA-1001	CIM0530R	30.85” x 27” x 37”	115/60/1	
RCA-1061	CIM0636R	30.85” x 27” x 37”	208-230/60/1	
RCA-2061	CIM0826R, CIM0836R, CIM1126R, CIM1446, ICE1506R, GEM2006R, and MFI2306R	30.85” x 27” x 41.79”	208-230/60/1	
RCA-3561	CIM2046R	30.85” x 27” x 41.79”	208-230/60/1	

Image dipicts a remote condenser with Grill Guard Kit installed.

- **Lightweight construction and an aluminum coil help reduce weight by nearly 20% compared to previous models.**
- **Condenser fits through a standard 30” x 36” roof hatch for ease of installation.**
- **Easy assembly and installation with innovative legs.**
- **More efficient motor reduces energy usage by 25% - 50%.**
- **Environmentally responsible — all remote condensers use R404A, an approved non-ozone depleting refrigerant.**
- **Constructed from sturdy, corrosion-resistant galvanized steel.**
- **Reduces air conditioning requirements and cost.**
- **Fan is located outside, ensuring quiet operation for customers.**

See page 2-4, 6, 9 for ice makers

RGA Remote Condensers

Model #	Remote Condensers for use with Models	Dimensions (W x D x H)	Voltage	
RGA0501-HM	GEM0650R and MFI0800R	30.85” x 27” x 37”	115/60/1

Ice Only Dispensers (IOD SERIES)

IOD150

IOD200

IOD250

Model		ARI Bin Storage (LBS)	Voltage	
IOD150	Cup Activated	150#	115/60/1	22.25" Width x 30.688" Depth x 35.625" Height
IOD200	Cup Activated	200#	115/60/1	30.25" Width x 35.688" Depth x 35.625" Height
IOD250	Cup Activated	250#	115/60/1	30.25" Width x 39.688" Depth x 39.625" Height

- **Cup clearance is 10".**
- **Ultra-low profile design.**
- **User friendly push-to-dispense operation.**
- **Quick stop - prevents ice overflow and waste.**
- **Interlock safety switch turns off machine agitator when access panel is removed to allow easy cleaning of machine.**
- **1" foam-insulation for maximum ice preservation (reduces quick melting of ice).**
- **Corrosion-resistant stainless steel and fingerprint-proof plastic.**
- **Auto Rotate Agitator - turns the ice every hour to provide more dispensable ice.**

Ice-O-Matic
Ice. Pure and Simple

For use with Ice-O-Matic cuber or pearl (nugget) ice makers

Note: Ice maker not included (sold separately)

Carbonators

BIG MAC

Part #	Description
Big Mac Carbonator	
E400397	Big Mac Carbonator with ASSE 1022 Device

14" Width x 13" Depth x 10.5" Height

- **Two-piece probe design.**
- **115v, 60hz, 7amp, 1/3hp.**
- **Right angle probe service cord.**
- **Brass water pump w/ integral strainer.**
- **1/4" MF CO2 inlet, (2) 3/8" MF soda water outlets.**
- **Diamond Brite Tank, easy clean, reduces corrosion.**

Note: 5-year component warranty on two-piece probe and carbonator tank.

McCann's

E400397

VA BALANCE CONTROL

Part #	Description
Carb-In-A-Box Carbonator	
416411000	VA Balance Control Carbonator

6.25" Width x 14" Depth x 15.125" Height

416411000

- **Rubber feet for stability and quiet.**
- **115v, 60hz, 6.8 amp, 1/3hp.**
- **Brass water pump w/ integral strainer.**
- **1/4" MF CO2 inlet, 3/8" MF water inlet.**
- **1/4" MF on carbonated water outlet.**
- **Designed to allow mounting to wall surface.**
- **100 gpm water pump capacity.**

Cornelius

Small Carb

Part #	Description
Small Carbonator	
43-6002	Small Carbonator with ASSE 1022 Device

9" Width x 11.5" Depth x 11" Height

- **Two-piece probe design.**
- **115v, 60hz, 7amp, 1/3hp.**
- **Right angle probe service cord.**
- **Brass water pump w/ integral strainer.**
- **1/4" MF CO2 inlet, 3/8" MF water inlet.**
- **3/8" MF soda water outlet.**

Note: 5-year component warranty on two-piece probe and carbonator tank.

McCann's

Accessories and Cold Plates

ASSE 1022: It's a back-flow prevention device that provides pressure relief in the event that the primary check valve fails. It ensues that the secondary check valve remains closed.

A carbonator facilitates the combining of water and CO2 gas that puts the fizz to soda.

Item # 16-0856
Pump saver, auto-shut off on carb motor when water pressure drops below 15-psi
Stocked

McCann's

FOR MCCANN: E400397 - BIG MAC

Item # 16-1480
Wall mount space-saver carbonator shelf for use with 43-6002 carbonator
Stocked

FOR MCCANN: 43-6002 - Carbonator

Water Filtration

EVERPURE

Everpure Insurice Filtration Systems:

- **Reduces abrasion and clogging.**
- **Reduces scale build-up and corrosion.**
- **Reduces off-tastes and odors.**
- **Reduces harmful cysts and other contaminates.**
- **Reduces particulates that result in cloudy ice.**
- ***Remember:* It's suggested to replace filter cartridges every 6-months.**

EV9324-01

Insurice Single i2000 System

Max Flow Rate: 1.67 gpm

Use this system with ice maker rated

Max Cuber Size: Up to 750 lbs / day

Max Flaker Size: Up to 1500 lbs / day

GIS # 9324-01

EV9324-02

Insurice Twin i2000 System

Max Flow Rate: 3.34 gpm

Use this system with ice maker rated

Max Cuber Size: Up to 1450 lbs / day

Max Flaker Size: Up to 2200 lbs / day

GIS # 9324-02

EV9325-03

Insurice Triple i4000 System

Max Flow Rate: 5 gpm

Use this system with ice maker rated

Max Cuber Size: Up to 2400 lbs / day

Max Flaker Size: Up to 3500 lbs / day

GIS # 9325-03

EV9325-04

Insurice Quad i4000 System

Max Flow Rate: 6.7 gpm

Use this system with ice maker rated

Max Cuber Size: High volume / day

Max Flaker Size: High volume / day

GIS # 9325-04

Insurice i2000 Replacement Cartridge

Fits Single and Twin Systems

EV9612-27 — 20.75" Height

GIS # 9612-27

Insurice Filter Systems with Pre-Filter

Item #	Description	
EV9324-21	Insurice Single PF-i2000 System with Pre-Filter	--
EV9324-22	Insurice Twin PF-i2000 System with Pre-Filter	--
EV9325-23	Insurice Triple PF-i4000 System with Pre-Filter	--

Select the Insurice system with pre-filter when larger dirt and rust particles are a factor. It will extend the life of the primary filter cartridges.

** VOLUME PRICING AVAILABLE **

Water Filtration

Ice-O-Matic 3-in-1 Filtration Systems:

- **Protection against sediment.**
- **Protection against unpleasant tastes & odors.**
- **Protection against scale formation.**
- ***Remember:* It's suggested to replace filter cartridges every 6-months.**

Ice-O-Matic
Ice. Pure and Simple

IFQ1-S
3-in-1 Single System
Service Flow Rate: .75 gpm
6" W x 4" D x 10.4" H
Use this system with ice maker rated Max Cuber Size: Up to 700 lbs / day Max Flaker Size: Up to 700 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ System Replacement Cartridge	
Fits IFQ Single and Twin Systems	
IOMQ-S	10.4" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary.
> .5 micron filtration.

IFQ1
3-in-1 Single System
Service Flow Rate: 1.5 gpm
6" W x 4" D x 15" H
Use this system with ice maker rated Max Cuber Size: Up to 1000 lbs / day Max Flaker Size: Up to 1000 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ System Replacement Cartridge	
Fits IFQ Single and Twin Systems	
IOMQ	12.75" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary.
> .5 micron filtration.

IFQ1-XL
3-in-1 Single System
Service Flow Rate: 2.25 gpm
6" W x 4" D x 21" H
Use this system with ice maker rated Max Cuber Size: Up to 1000 lbs / day Max Flaker Size: Up to 1000 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ-XL System Replacement Cartridge	
Fits IFQ1-XL Single and Twin Systems	
IOMQ-XL	17.49" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary.
> .5 micron filtration.

Water Filtration

Ice-O-Matic 3-in-1 Filtration Systems:

- **Protection against sediment.**
- **Protection against unpleasant tastes & odors.**
- **Protection against scale formation.**
- ***Remember:* It's suggested to replace filter cartridges every 6-months.**

Ice-O-Matic
Ice. Pure and Simple

IFQ2
3-in-1 Twin System
Service Flow Rate: 3.0 gpm
10" W x 7.125" D x 16" H
Use this system with ice maker rated
Max Cuber Size: Up to 2400 lbs / day
Max Flaker Size: Up to 2400 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ System Replacement Cartridge	
Fits IFQ Single and Twin Systems	
IOMQ	12.75" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary.
> .5 micron filtration.

IFQ2-XL
3-in-1 Twin System
Service Flow Rate: 4.5 gpm
10" W x 7.125" D x 23.21" H
Use this system with ice maker rated
Max Cuber Size: Up to 2400 lbs / day
Max Flaker Size: Up to 2400 lbs / day

> Wall-mount bracket and full-flow inlet shut-off valve make installation simple.

IFQ-XL System Replacement Cartridge	
Fits IFQ1-XL Single and Twin Systems	
IOMQ-XL	17.49" Height

> 1/4 turn QT "QuickTwist" cartridge makes changing the filter quick, easy and sanitary.
> .5 micron filtration.

In-Line Water Filtration System

Part #	Description	
IFI4C	Single In-Line Cartridge, 1/4" Compression	
IFI8C	Single In-Line Cartridge, 1/8" Compression	

For use with ICEU070, ICEU150, ICEU220, ICEU300, ALL UCGXXX and MFI0500.

IFI4C

IFI8C

Note: Ice-O-Matic offers an extended 7-year parts and labor evaporator warranty (on specific models) IF the customer enrolls in their 3-in-1 filter replacement program at the time a new ice machine is purchased. Due to the extensive requirements for the filter cartridge to be changed every 6-months, please ask a salesperson for details of the program before commiting to it.

Colddrink Systems without Pre-Filter

Everpure MC2 Filtration Systems:

- **Reduces abrasion and clogging.**
- **Reduces improper carbonation.**
- **Reduces off-tastes and odors.**
- **Reduces harmful cysts and other contaminates.**
- **For use with carbonated beverage systems only.**
- ***Remember:* It's suggested to replace filter cartridges every 6-months.**

Ice Machine Cleaners

Nickel-Safe Ice Machine Cleaner

Item #	Description	
4287-34	Nickel-Safe Ice Machine Cleaner 16 fl oz.	N/S

> Made for use on machines with Nickel-Plated Evaporators.
> Can be used on any cuber, flaker, drum, or tube ice maker.
> Food-Grade, USDA-Accepted.

Item #	Description	
1011411-88	Nickel-Safe Ice Machine Cleaner 16 fl oz.	*Stocked*

> Made for use on machines with Nickel-Plated Evaporators.
> Can be used on any cuber, flaker, drum, or tube ice maker.
> Food-Grade, USDA-Accepted.

ScaleKleen Deliming/Scale Remover

Item #	Description	
EV9798-35	ScaleKleen Deliming/Scale Remover Cleaner 2.2 lbs.	*Stocked*

> Quickly removes limescale from coffee brewers and similar equipment.
> Idea for deliming steam and warewashing equipment.
> Non-toxic, safer to skin and won't burn clothing like other deliming acids.
> Sewer system disposable, so you can pour it down the drain.
> Use with the JT cartridge system to avoid equipment disassembly.
> Works on most water using equipment where deliming is required.
> Product must be used according to use instructions stated on canister.

Item #	Description	
EV9608-00	4JT Flushing/Sanitizing 16" Cartridge	GIS # 9608-00
EV9608-10	2JT Flushing/Sanitizing 10" Cartridge	N/S

> For use in existing Everpure quick change filter heads.
> For use with ScaleKleen or other sanitizing agents.
> Eliminates the need for difficult component disassembly.
> Cartridges must be installed and used according to instructions.

EV9608-00

TOUCHLESS

Touchless Beverage & Ice Dispensing

An Innovative Hands Free Sanitary Solution

In today's foodservice environment, reducing the number of consumer touchpoints is top of mind and challenges current foodservice self-serve stations. The Touchless Beverage & Ice Dispensing solution keeps consumers safe by reducing the risk of surface contact.

- **Cup Sensing Technology -** Place a cup below the valve to activate product dispense. Remove cup to deactivate the sensor.
- **LED Dispensing Indicators -** The valve provides a visual dispensing cue using LED lights for both beverage and ice.
- **Easy to Clean -** Provides a primary key switch for fast and easy cleaning and defaults back to normal dispense mode after 60 seconds.
- **Accommodates All Ice and Cup Types/Sizes -** Up to 52 oz, excluding glass.
- **Easy to Control -** Enhanced pour features allow for faster response times, top-off capabilities, and auto shut-off.
- **Upgrade Existing Equipment to Touchless -** Upgrade or replace existing SFV1, UFB, or UF1 valves with no rebrixing.

Assembled by our Pump Master to the customer's specification and need. Once complete, the assembly is strapped and wrapped to pallet(s) and then shipped by freight carrier.

Bag-In-Box Rack Systems

Pump Master Gurnteed

BUILD TO ORDER
TEA OR JUICE
BAG-IN-BOX DISPENSING SYSTEM

- **Sturdy all welded construction.**
- **Powder coated black rack.**
- **Custom built configurations to specification.**
- **Required BIB pumps, tubing, and connectors included.**
- **Required CO2 regulator(s) included.**
- **Includes mounted bargun.**
- **Pre-assembled and shipped complete.**
- **Great for nursing stations and health care facilities.**

Because these systems are custom built, there are no specific part numbers available. When ordering, provide details of type tea and/or juice system you require and the sales person will configure the system to your specifications and provide a quote thereafter.

Pre-built 4-Pump Bag-in-Box Rack System

Flat Vertical Shelves with Pump Panel Riser
For use with Frozen Carbonated Beverage (FCB) machine or other related equipment

- **Sturdy all welded construction.**
- **Powder coated black rack.**
- **Can also be custom built to specification.**
- **All BIB pumps, tubing, and standard connectors included.**
- **CO2 regulator included.**
- **Pre-assembled to specification and disassembled for shipping.**
- **Designed for use with 4-Product FCB machines.**

Part # BIB-10004

- **15” wide x 17” deep x 69” high.**
- **Top box height 45”.**
- **Modular design.**
- **Syrup lines feed through back of rack.**

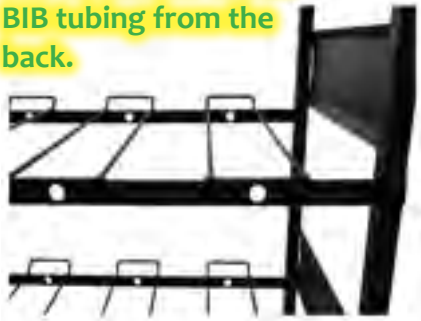
Each pre-built BIB rack comes with standard gray BIB connectors. If you require Pepsi or Coke connectors (green or red), please advise at time of order.

Bag-in-Box Rack Systems and Backroom Packages

Whether its Convenience Stores, Restaurants, Fast Food Chains, Hospitals, or Hotels, we are experts at providing complete Ice, Beverage, and backroom packages to serve every need.

Flat Vertical with Louvered Pump Panel racks specially designed to hold 4 BIB boxes per shelf.

Large center holes built into each shelf to run BIB tubing from the back.



Primary and secondary regulators mounted to rack for easy connection to system.

Side panels on each shelf provides pump mounting holes to add additional BIB pumps as necessary.

From inception Gulf Ice Systems has been an innovator providing beverage dispensing solutions. From the original concept of bundled beverage tubing to the BIB Halo system configuration, we've been instrumental in historically impacting the industry.

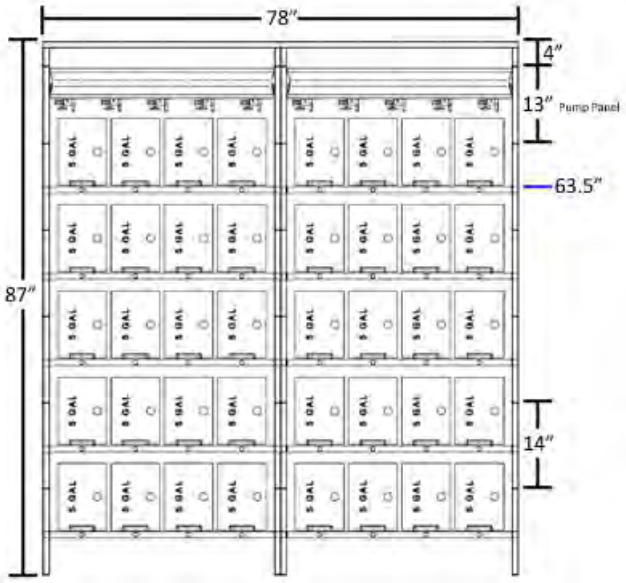
We configure, build, assemble, and install backroom packages to fit your need

Bag-In-Box Rack Systems

The Bag-in-Box rack system depicted on the left is configured for 20 Flojet pumps per section (Halo configuration with a total of 40 pumps)

An individual measuring 4'10" in height is still capable of reaching the top shelf to insert a 5-gallon BIB box.

This BIB rack configuration holds up to (40) 5-gallon BIB Boxes.



Bag-In-Box Air Pumping Station

This is an economical air station for use with BIB pumps. It features a piston style compressor and a stainless steel tank. The air pumping station can operate up to 3 pumps simultaneouly.

The automatic pressure switch is preset for 60 psi on and 80 psi off. All models have quick disconnect with a 1/3 HP compressor. Each model has a pressure regulator with guage and a self-draining condensation valve. Both models are 115 VAC.

Older # N5000-135 and T5000-135	
INLET: No fitting:	
OUTLET: No fitting:	
GAS IN: No CO2 Shutoff:	
Stocked	

- **Designed for dispensing BIB syrups.**
- **Juice concentrate (without pulp or particulates).**
- **Can dispense teas, wines, draft beer, and liquor.**
- **Compact design with quick disconnect fittings.**

N/S = Non-Stocked Item, requires special order and lead time.

CO2 Gas, Nitrogen, or Compressed Air Powered Pumps

For pumping BIB Syrup from Bag-in-Box to Dispenser

FLOJET

- **Designed for dispensing BIB syrups.**
- **Juice concentrate (without pulp or particulates).**
- **Compact design with quick disconnect fittings.**

G55 Series Single Syrup Pump

Product #	Discription	Inlet	Outlet	Gas In	
		Barbed Straight Stainless Steel	Barbed Straight Stainless Steel	CO2 Shutoff	
G55-1012	Single Pump w/ auto shutoff valve	3/8”	1/4”	1/4” Brass Straight	N/S
G55-1022	Single Pump w/ auto shutoff valve	3/8”	3/8”	1/4” Brass Straight	Stocked
G55-1000M	Single Pump, no fittings	--	--	--	N/S

Other models with multiple configurations available for specific applications. Not all single pump options are listed here.

- **Designed for dispensing juice concentrate with pulp.**
- **Designed for dispensing condiments which have pulp.**
- **Can dispense highly viscous particulates.**

G58 Series Single Pulpjet Pump

Product #	Discription	Inlet	Outlet	Gas In	
		Barbed Straight Stainless Steel	Barbed Straight Stainless Steel	CO2 Shutoff	
G80-1022	Single Pump w/ auto shutoff valve	3/8”	3/8”	1/4” Brass Straight	Stocked

- **Designed for dispensing beer from keg, cask, or brew kettle.**

> An Air compressor can be used to pressurize the beer pump.
> One pump will feed up to three faucets through a single line.
> It can be used for both long or short draw systems.

G56 Series Single Beer Pump

Product #	Discription	Inlet	Outlet	Gas In	
		Barbed Straight Plastic	Barbed Plastic	CO2 Shutoff	
G56-1202	Single Beer Pump	3/8”	3/8” Straight	1/4” Brass Straight	Stocked

Part #	Description	
FRV0001	Reverse Flow Valve for G56 Beer Pumps Only	N/S

Allows running cleaning solution both directions and through multiple lines at one time.

N/S = Non-Stocked Item, requires special order and lead time.

Bag-In-Box Syrup Pumps

CO2 Gas, Nitrogen, or Compressed Air Powered Pumps

For pumping BIB Syrup from Bag-in-Box to Dispenser

SHURflo

- **Designed for dispensing BIB syrups.**
- **Juice concentrate (without pulp or particulates).**
- **Can dispense teas, wines, milk, and water.**
- **Compact design with quick disconnect fittings.**
- **Features automatic demand and sold-out shutoff.**
- **Max operating pressure is 85 psi.**
- **Includes metal mounting bracket.**

Product #	Discription	Inlet	Outlet	Gas In	
Heavy Duty Advantage Single Syrup Pump		Barbed Elbow Plastic	Barbed Elbow Stainless Steel	CO2 Shutoff	Stocked
94-360-38	Single Pump (black) BIB Syrup	3/8”	3/8”	1/4” Plastic Elbow	

Other models with multiple configurations available for specific applications. Not all single pump options are listed here.

- **Designed for dispensing juice concentrate with pulp.**
- **Designed for dispensing condiments which have pulp.**
- **Can dispense highly viscous particulates.**
- **Max operating pressure is 70 psi.**
- **Includes metal mounting bracket.**

Product #	Discription	Inlet	Outlet	Gas In	
Heavy Duty Advantage Single Juice Pump		Barbed Elbow Plastic	Barbed Elbow Plastic	CO2 Shutoff	Stocked
94-360-05	Single Pump BIB Juice	3/8”	3/8”	1/4” Brass Elbow	

Brix Pumps

- **Designed as a proportioning device to pump two liquids (water and concentrate) in an exact ration.**
- **The ration is determined by the pump design.**
- **No brix adjustments are ever needed.**
- **Ideally suited to juice applications and incorporates a valve for use with syrups containing “stringy” pulp.**
- **Includes metal mounting bracket.**

Product #	Discription	Ratio	
Brix Single Pump			
94-260-01	Single Brix Pump w/ vacuum shutoff	3 : 1	N/S
94-260-03	Single Brix Pump w/ vacuum shutoff	4 : 1	N/S
94-260-05	Single Brix Pump w/ vacuum shutoff	5 : 1	Stocked

N/S = Non-Stocked Item, requires special order and lead time.

Available Fittings:

Standard configuration is 3/8” barbed plastic elbow.

1/4”, 3/8”, and 1/2” barbed, plastic, or stainless steel, straight and/or elbow are available if requested at time of order.

Automatic Selector Valves (ASV)

SHURflo

The Shurflo ASV permits two or more syrups (BIBs) to be connected at the inlet port of the BIB pump. The BIB pump draws product through one side of the ASV until the BIB is evacuated and higher than normal vacuum is detected. Once the "switching" level of vacuum is obtained, the ASV automatically switches and begins drawing product from the BIB connected to the other side. The ASV permits uninterrupted drink dispensing and allows store personnel the ability to replace the BIBs at a convenient time.

Gulf Ice Systems

Palm Abbe Digital Refractometer

For Brixing Fountain & Juice Beverages

Model: PA201

Digital Refractometer

Comes with rubber armor jacket and heavy duty Carry Case

Includes Carry Case & jacket

- **Designed for use with FCB machines.**
- **Determines sugar content in juice & fountain beverages**
- **Range 0 to 56 Brix**
- **Resolution 0.1%**
- **Precision +/-0.1%**
- **Price includes rubber armor jacket**
- **Price includes rugged carry case**
- **Features Sapphire Optics**
- **Features Stainless Steel Well**
- **Features Evaporation Cover**
- **24 Character Display with Backlight**
- **1,024 Element Detector Array**
- **Powered by (2) AAA Batteries (included)**
- **MADE IN THE USA**

Accuflex

Bev-Seal Ultra 974 Bundled Tubing: Flushable Bev-Seal Ultra® Series 235 tubes, each color coded, individually numbered and branded with NSF-51 and NSF-61 listings and date codes for traceability. Special film wrap over cabled tubes offers excellent flexibility and tight bend capabilities. Silver-gray extruded jacket, with slip agent to minimize friction, is branded with product identification, NSF listing marks, and sequential footage markings for ease of measurement.

Series 200 Clear PVC Tubing: Dual durometer construction combines a low extraction inner contact surface with a flexible outer layer for excellent kink resistance and taste protection properties. Clear Food Grade liner materials free from colorants.

Series 213 and 215 PVC Drain Tubing: Industrial grade PVC tube construction providing lightweight flexibility, kink-resistance and economy.

Camserver - Insulated Beverage Dispenser
For hot and cold beverages

A contemporary, convenient beverage server for the office or banquet, the Camserver protects piping hot or chilled drinks for hours. Coffee, tea, and ice-cold lemonade can be served side by side with confidence, secured by a double wall shell and thick foam insulation. A top-fill opening design offers fast replenishment without having to remove the cover, while remaining incredibly easy to clean and store. Safe for commercial dishwashers, this Camserver joins classic Cambro durability with the aesthetic of fine dining. Choose from three and five gallon options for versatility in your beverage service, on any occasion.

- **For hot or cold beverages.**
- **Doublewall shell with thick foam insulation.**
- **Wide latches are easy to open and close.**
- **Convenient top-fill opening.**
- **Drip-free recessed faucet has continuous and individual dispensing.**
- **2 product variations (3 or 5 gallon versions).**
- **3 neutral color options (Black, Coffee Beige, or Gray).**

Gulf Ice Systems

NOTES

Need Service?

1-800-322-4853 (x114)

We have a full service ice & beverage equipment service and warranty administration departments.

We service what we sell and fully back all manufacturer's warranty for the equipment sold by us.

(Certain restrictions apply. All warranties required to follow manufacturer's warranty allowances and guidelines)

We also provide complete Ice and Beverage system packages with professional installation.

The "2024 +" is a dealer and customer catalog designed to be used for product reference and specifications only.

Published in the year 2024, this catalog is to be used for sequential years until requiring a complete update, such as when an entire product line is discontinued. Thus, we call this our 2024 + catalog.

DISCLAIMER: To the best of our knowledge, the information presented in this catalog is valid and was researched for accuracy. As such, any misrepresentation of product data may be a result of the source material or came into existance by simple human error and is not intentional.
