

Touchless Touchless Beverage & Ice Dispensing

Compatible with Enduro Ice and Drink Combo and Ice Only Equipment with SFV1, UFB or UF1 Valves

Specification Sheet

TOUCHLESS

Features

Cup Sensing Technology

Indicator levels make it easy for customers and crew to single-handedly dispense any size beverage

LED Dispensing Indicators

Visual dispensing cues for both beverage and ice

Easy to Clean

Primary key switch for fast and easy cleaning with a fail-safe secondary sensor switch for keyless staff — defaults back to dispense mode after 60 seconds

Accommodates All Ice Types

Touchless ice dispense supports all ice types and variety of cup types (up to 52 ounces)

Upgrade Existing Equipment to Touchless

Upgrade or replace existing SFV1, UFB and UF1 valves with no rebricking needed. Bricking required for non-Cornelius valves

Easy to Control

Enhanced pour features allow for faster response times, top-off capabilities and auto shut-off

Touchless Beverage & Ice Dispensing

Compatible with Enduro Ice and Drink Combo and Ice Only Equipment with SFV1, UFB or UFI Valves

Specification Sheet

Technical Specifications

Product Category	Touchless Beverage Dispensing Valve Kit
Operational Relative Humidity Range	20%-100%
Operational Temperature Range	32°F - 140°F (0°C - 50°C)
Valve Compatibility	Cornelius SFV-1, UFB, UFI
Voltage Requirements	24V / 50-60 Hz
Graphic Size	Front: 2.91"H x 1.9"(top) x 2"(bottom) Back: 1.22"H x 1.97"(top) x 2"(bottom)
Agency Listing	NSF, UL

Product Category	Touchless Ice Dispensing Kit
Operational Relative Humidity Range	20%-100%
Operational Temperature Range	32°F - 140°F (0°C - 50°C)
Machine Compatibility	Cornelius ED150-ED250, ED300
Agency Listing	NSF, UL

Model Number	Description
629097984	Kit, UF Valve, Touchless Conversion (Black Cover)
629097985	Kit, UF Valve, Touchless Conversion (Gray Cover)
629097980	Kit, Touchless Ice, ED300
629097982	Kit, Touchless Ice, ED150, ED175, ED200, ED250

Compatible with Enduro Ice and Drink Combo and Ice Only Equipment with SFV1, UFB or UFI Valves
